

Poster number	ID	Title
<b>Agronomy and Forestry</b>		
P01.	14	Chemical characterization of traditional sweet chestnut and hybrid varieties
P02.	15	Influence of forest management systems on the morphological and chemical variation of wild sweet chestnut ( <i>Castanea sativa</i> Mill.) populations
P03.	105	New data on the genetic resources of <i>Ulmus</i> species in Bulgaria
P04.	56	The effect of the engagement with the cultivation of vegetables on the cognitive and psychomotor development of the students of the school of Special Vocational Education and Training (E.E.E.K.) of Thira
<b>Botanic Gardens and Botanical Collections</b>		
P05.	39	Balkan Botanic Garden Kroussia, Greece: applied research and sustainable exploitation of Greek flora
P06.	50	Occurrence verification of some plant species through TAU's historical collections
P07.	79	Thematic Botanic Garden based on customary observances of contemporary Jewish communities in Greece. The case of Romaniotes at Ioannina.
<b>Conservation Botany and Plant Invasions</b>		
P08.	80	BioBlitz survey on invasive alien plants in the region of Pancharevo Lake, Bulgaria
P09.	69	<i>Colchicum atticum</i> (Colchicaceae) at the northern limit of its range – distribution and conservation
P10.	107	Designing an effective Plant Micro-Reserve Network within the protected areas of Chelmos-Vouraikos Management Unit (N Peloponnisos, Greece)
P11.	47	Ecosystem condition assessment of sand dune habitats in Evrotas (Greece) – Proposals for management measures and actions
P12.	71	<i>Euphorbia serrata</i> L. (Euphorbiaceae) and <i>Clerodendrum bungei</i> Steud. (Lamiaceae), two new alien species of the Greek flora
P13.	59	Fixed coastal dunes with <i>Alyssum borzaeanum</i> Nyár. in the Danube Delta Biosphere Reserve (Romania) – floristic particularities, conservation status, future tendencies and
P14.	17	Greek sea-lavenders: distribution and conservation status of eight <i>Limonium</i> species from the Aegean Islands and the mainland
P15.	104	Natural localities of <i>Rhodiola rosea</i> in Bulgaria: their status and dynamics caused by anthropogenic pressure and climate change
P16.	18	Recent deterioration of the population state of <i>Tozzia alpina</i> subsp. <i>carpathica</i> in Vitoshka Mountain, Bulgaria
P17.	68	Sustainable management of aromatic and medicinal plants at protected areas of North Peloponnisos (Greece)
P18.	80	The invasive alien species of <i>Heraclium</i> (Apiaceae) in the Bulgarian flora
P19.	47	The invasive alien species of sand dune ecosystems in Elafonisos (Greece) – Management measures and actions
P20.	70	The impacts of climate change on the conservation status of the Mediterranean Basin taxa: A preliminary meta-analysis
P21.	49	The seasonality of a <i>Halophila stipulacea</i> seagrass meadow near a fish farm
<b>Cryptogamic Botany</b>		
P22.	41	Diversity of endophytic fungi in the marine angiosperms of the Aegean Sea
P23.	4	Pilot study to assess diatom diversity of soda pans using morphological and molecular analyses (Vojvodina province, Serbia)
P24.	53	Representative lichens of the alliance <i>Lobaria pulmonariae</i> in Nature Park Papuk (Croatia)
P25.	4	Use of diatoms to monitor eutrophication in large lowland rivers
<b>Floristics and Phytogeography</b>		
P26.	78	Altitudinal patterns of orchid species diversity in the central Balkans
P27.	12	Impact of climate factors on habitat suitability of an amph-Adriatic plant <i>Festuca bosniaca</i> Kumm. et Sendtn.
P28.	46	Monitoring of vascular flora in Nature Park Kopački Rit (Danube River floodplain, Croatia)
P29.	107	Plant diversity of olive groves under different management practices: the case study of the island of Kythera (Greece)
P30.	71	Weed diversity in cultivated land: investigating optimum species richness in the plains of Thiva (Greece)
<b>Palynology and Paleobotany</b>		
P31.	69	Comparative palynomorphological study of selected taxa of <i>Valeriana</i> L.: taxonomic and evolutionary implications
P32.	31	Pollen micromorphology of <i>Arabis procurrens</i> and <i>A. hirsuta</i> (Brassicaceae) grown in Jerma River Canyon in Serbia
<b>Phytochemistry and Plant Natural Compounds</b>		
P33.	74	An LC-HRMS and GC-MS approach for the chemotaxonomic investigation of the natural hybrid <i>Origanum x lirium</i> and its parents, <i>O. vulgare</i> subsp. <i>hirtum</i> and <i>O. scabrum</i>
P34.	34	Bioactive compounds of <i>Arctostaphylos uva-ursi</i> growing in Bulgaria
P35.	108	Chemical composition of four <i>Salvia</i> taxa essential oils from North-East Greece
P36.	63	Chemical inves-ga-on of vola-le compounds in Balkan <i>Tripleurospermum</i> (Asteraceae) species
P37.	36	Chemical profile of essential oil of <i>Helichrysum arenarium</i> (L) Moench. distributed in Bulgaria
P38.	36	Chemotypes of <i>Pinus heldreichii</i> Christ. in Bulgaria and the antimicrobial activity of essential oils
P39.	83	Chemotypes of <i>Pinus peuce</i> in Bulgaria and the antimicrobial activity of its essential oils
P40.	104	Medicinal plants - a source of new acetylcholinesterase-inhibitor molecules in the fight against neurodegenerative diseases
P41.	57	Micromorphological and phytochemical investigation of endemic <i>Satureja kitabelii</i> Wierzb. ex Heuff.
P42.	31	Overview of carotenoids distribution among wild plant species of the Balkan Peninsula
P43.	34	Phenolic compounds and free radical scavenging activity of endemic <i>Thymus</i> species
P44.	55	Phytochemical and molecular analysis of <i>Sideritis</i> taxa from Greece
P45.	57	Volatile organic compounds of an endemic species <i>Centaurea tomosorii</i> Micevski from North Macedonia
<b>Plant Anatomy and Development</b>		
P46.	20	"Double-arrow" phragmoplasts under heat-stress in various plant species: possible heat-sensitivity of katanin
P47.	42	Leaf structural traits of carob tree bioindicating air pollution
P48.	54	Leaf vascular characteristics of the wild <i>Helianthus</i> species
P49.	43	Root cell wall modifications present in <i>Arabidopsis arenosa</i> and <i>Arabidopsis halleri</i> Zn and Cd hyperaccumulators
P50.	48	Stomata in contact: a special feature of the stomata structure in the <i>Amaryllidaceae</i> family
P51.	54	Variation in hydraulic conductivity on sunflower root seedlingsVariation in hydraulic conductivity on sunflower root seedlings
<b>Plant Physiology and Ecophysiology</b>		
P52.	28	Accumulation of Manganese in <i>Euphorbia glabriflora</i> studied in situ and by the portable XRF herbarium scanning
P53.	81	A common Mediterranean diatom shifts lipid and protein production under influence of relevant climate change stressors
P54.	20	A comparative study of stress resistance between <i>Triticum aestivum</i> and <i>Triticum dicoccum</i> : microtubule organization and mitotic cell division as targets of adverse abiotic challenges
P55.	29	New Zn hyperaccumulator within the genus <i>Cardamine</i> revealed by portable XRF herbarium scanning
P56.	77	Nickel accumulation of <i>Odonotarrhena chalcidica</i> (Janka) Španiel & al. and its effects on morphological and physiological parameters under drought stress
P57.	23	Partitioning of free proline in organs of four Mediterranean geophytes within the context of the seasonality
P58.	88	Protective effects of nitric oxide on the photosynthetic apparatus under salt stress
P59.	65	The use of different LEDs wavelength and light intensities on photosynthetic function, leaf anatomy and in vitro rooting of MM106 apple rootstock
P60.	55	Variation of photosynthetic traits of chasmophytic <i>Campanula</i> taxa ( <i>Campanulaceae</i> ) as a response to temperature and season
<b>Plant Resources and Utilization</b>		
P61.	73	Utilization green energy technologies for water/carbon footprint minimization of an intensive combined cultivation in a controlled, protected environment: a lettuce- <i>Chlorella vulgaris</i> example
<b>Plant Taxonomy, Biosystematics and Evolution</b>		
P62.	10	Cytotype diversity and genome size variation in <i>Festuca varia</i> complex (Poaceae) in south-eastern Europe
P63.	67	DNA fingerprinting of <i>Abies cephalonica</i> , <i>A. alba</i> and their hybrid ( <i>A. x borisii-regis</i> )
P64.	107	Functional diversity of the genus <i>Hypericum</i> in Greece
P65.	61	Taxonomy of <i>Acinos</i> Mill. (Lamiaceae) in Greece: Morphological variation and distribution
P66.	55	<i>Verbascum salicifolium</i> (Scrophulariaceae), a new species from Central Macedonia, Greece
<b>Vegetation Science and Plant Ecology</b>		
P67.	72	Ecological diversity and overview of floodplain poplar communities in Vojvodina (Serbia)
P68.	62	Allergenicity assessment of urban green spaces in the city of Thessaloniki: The AlleGreen project
P69.	76	Application of DPSIR framework to assess the mining pressures on Mount Giona, Greece
P70.	76	Assessing plant and vegetation diversity in Mediterranean-type agroecosystems
P71.	38	Vegetation survey for the delineation of wetlands outside Natura 2000 sites in the Peloponnese (Greece)
